

Introducing BroadArks

Integrated Institutional Profile & Partnership Proposition

OVERVIEW

BroadArks Technology Pvt. Ltd. is the parent arm of an integrated capability group working at the intersection of workforce development, social impact, sustainability and artificial intelligence. Incorporated in 2020 and headquartered in Bhopal, the company brings four specialist divisions - **Y&Now, BroadArks Foundation, Kari Green and Vihaanga AI** - under one strategy, governance framework and partner relationship. Together, they convert complex enterprise and development priorities into practical, technology-enabled and measurable solutions.

HEADQUARTERS

Purpose, Mission & Vision

Purpose

To create measurable, lasting improvements in quality of life by advancing education, health, employability and livelihood opportunities.

Mission

To close skill and opportunity gaps through accountable, inclusive and technology-enabled programs that move people from learning to sustainable livelihoods.

Vision

An India where every individual can access the skills, support and opportunities needed for a productive, dignified livelihood, and where institutions and enterprises have the capabilities to grow responsibly.

Why BroadArks

India's opportunity gap is rarely solved by training alone. Learners need relevant curricula, hands-on practice, assessment, industry exposure, placement or enterprise support, and continued tracking. BroadArks combines these elements within an end-to-end model, adapting each intervention to the needs of the community, institution, employer and funding partner.

One organization. Four specialist capabilities. One accountable delivery framework.

One Company. Four Divisions.

BroadArks Technology Pvt. Ltd. integrates specialist capabilities under one arm

INTEGRATED DIVISIONAL ARCHITECTURE

Y&Now | Workforce & Employability

Skill-gap analysis, curriculum and content, classroom and blended learning, assessment, job-readiness, Hire-Train-Deploy, placements, upskilling and microenterprise enablement.

BroadArks Foundation | Social Impact

CSR and community implementation covering need assessment, mobilization, education, healthcare, livelihood programs, institutional coordination, inclusion and impact reporting.

Kari Green | Sustainability & Circularity

Green skills, renewable energy, resource efficiency, circular-economy pathways, climate-responsive livelihoods and translation of environmental priorities into implementable programs.

Vihaanga AI | Intelligence & Technology

AI-enabled profiling, digital learning support, analytics, dashboards, workflow automation, monitoring, evidence generation and decision support across programs.

The Linkage

Y&Now builds human capability; **BroadArks Foundation** anchors community access and CSR delivery; **Kari Green** embeds sustainability and green-economy relevance; and **Vihaanga AI** provides the digital intelligence layer. Each can lead a specialist mandate, while BroadArks Technology integrates them for complex, multi-year assignments.

One Front Door for Partners

Partners engage BroadArks Technology through one program architecture, one governance framework and one reporting rhythm. The company assembles the required divisional capabilities behind the engagement, reducing fragmentation and maintaining accountability from design through outcomes.

Integrated Delivery Under One Arm

A connected pathway from need identification to measurable and scalable outcomes

THE BROADARKS INTEGRATION MODEL

1

Understand & Diagnose

Foundation maps communities; Y&Now assesses skill gaps; Kari Green identifies sustainability levers; Vihaanga AI structures data and baselines.

2

Design the Solution

A shared team converts the diagnosis into outcomes, curricula, infrastructure, technology, inclusion measures, budgets, KPIs and an implementation roadmap.

3

Mobilize & Deliver

Foundation leads field engagement; Y&Now delivers training; Kari Green integrates green practices; Vihaanga AI supports digital learning and visibility.

4

Connect to Opportunity

Industry exposure, OJT, placement, self-employment, enterprise incubation, market linkages and green-economy opportunities are activated.

5

Measure, Improve & Scale

Dashboards and analytics connect learning, employment, social and environmental indicators to partner reporting and continuous improvement.

Integrated Value to Partners

Single-point accountability

One lead relationship, consolidated workplan, reviews and reporting.

Modular engagement

Use one division or combine capabilities without multiple disconnected vendors.

Industry-community bridge

Convert enterprise needs into accessible skills, livelihoods and local opportunities.

Evidence-led scale

Use digital monitoring and feedback to improve, replicate and scale responsibly.

Experience & Partnership Readiness

Evidence-led implementation, quality systems and sector relevance

SELECTED EXPERIENCE AND READINESS

EV Centre of Excellence, Pune

Implementation partner for the Envalor-supported Centre of Excellence in EV Technology at Marathwada Mitra Mandal's Polytechnic. The program combines modern laboratory infrastructure with structured Level 4 and Level 5 learning pathways and practical assessment.

Women-focused garment and livelihood skilling

Experience in advanced dress designing and tailoring for rural women, integrating technical skills, soft skills, leadership, beneficiary documentation and post-training livelihood tracking.

Green and technical-skills program design

Capability to design Centers of Excellence and short-term programs in solar installation and maintenance, two-wheeler BS VI diagnostics, CNG safety and service practices, with classroom, hands-on and assessment components.

Community-led implementation

Programs are designed around local need assessment, inclusive mobilization, institutional partnerships, practical delivery, livelihood transition and measurable reporting.

Governance & Institutional Credentials

BroadArks Technology Pvt. Ltd. is an ISO 9001:2015-certified organization headquartered in Bhopal, Madhya Pradesh. **BroadArks Foundation** is a separately registered nonprofit society established in 2014. Its institutional registrations and compliance framework support structured collaboration with corporate, government, educational and philanthropic partners.

Partnership Proposition

A structured engagement model designed for transparency and measurable outcomes

WORKING WITH BROADARKS

BroadArks works with corporate CSR teams, government agencies, educational institutions, philanthropic organizations and industry partners to translate development priorities into implementable programs. Each engagement is structured around clearly defined roles, milestones and success indicators agreed at the outset.

The Partnership Model May Include

Project design

Needs-led concepts, theory of change, outcomes and implementation plans.

Infrastructure planning

Centers of Excellence, laboratories, tools, technology and learning environments.

Beneficiary mobilization

Community outreach, counseling, profiling, screening and enrollment.

Training delivery

Technical, practical and soft-skills learning through classroom and blended modes.

Assessment & certification support

Knowledge checks, practical evaluation, evidence and certification coordination.

Opportunity linkages

Industry exposure, OJT, placements, self-employment and enterprise development.

Monitoring

Attendance, progress, milestone, financial and operational tracking.

Impact reporting

Outcome measurement, dashboards, learning reviews and partner reports.

Accountability by Design

A single lead relationship, consolidated workplan, structured reviews and unified reporting help partners maintain visibility from program design through implementation and outcomes.

Leadership & Corporate Presence

Experienced leadership connecting strategy, learning and social impact

LEADERSHIP TEAM

Pankaj Dutta | Founder & CEO

A strategy and business-development professional with 17+ years of experience across organizations including Sony Pictures, Paramount Pictures, Globe Telecom and Tata, with exposure across Europe, the UAE, Southeast Asia and the United States. He leads group strategy, partnerships and growth.

Dr. Kaveri Dutta | Co-Founder & Chief Learning Officer

A learning and development professional with 15+ years of experience in curriculum design, vocational education, textiles, handlooms, handicrafts and sustainable design. She leads learning architecture, program quality and industry-academia engagement.
